Proposal Template

Original Lilly Conference on College Teaching

Note: You must complete all items below for your proposal to be complete. Respond with your text below each prompt. The entire proposal, excluding title, abstract, and reference list, must not be more than 6500 characters. All proposal content should be made anonymous for peer review, i.e., no reference to author name(s) or institution(s).

Session Title (not more than 80 characters; spaces count as characters):

Session Abstract (not more than 500 characters; spaces count as characters):

Proposal Category (Choose Research, Innovation, Integration, or Application; see the [website](#) for category descriptions):

Topic/Issue or Goal to Be Addressed (What teaching and learning challenge or opportunity did you investigate?) (not more than 1500 characters; spaces count as characters):

Instructional Context (If your innovation involves a particular course, curriculum, or program, briefly describe it, its students and participants, and its place in the curriculum, program, or institution) (not more than 500 characters; spaces count as characters):

Methods (How did you solve the problem, answer the question, or address the opportunity? How is your approach different from those that others have tried? Cite relevant literature on the topic—up to 5 citations—in APA 7 format for context.) (not more than 2000 characters; spaces count as characters):

Research/Evaluation (Indicate how you determined or will determine the success and effectiveness of your application.) (not more than 1000 characters; spaces count as characters):

Session Learning Outcomes (Use measurable verbs, e.g., "Participants will describe, analyze, create," etc.) (not more than 500 characters; spaces count as characters):

Session Structure (How will the session unfold?) (not more than 400 characters; spaces count as characters):

Session Activities (What will participants do?) (not more than 250 characters; spaces count as characters):

References (list up to 5 cited references in APA 7 format):
