

## Byran J. Smucker

---

CONTACT INFORMATION	Department of Statistics Miami University 334C Upham Hall Oxford, OH 45056	<i>Phone:</i> 513.529.7828 <i>Fax:</i> 513.529.0989 <i>E-mail:</i> smuckerb@miamioh.edu <i>Webpage:</i> sites.miamioh.edu/byran-smucker/
CITIZENSHIP	USA	
RESEARCH INTERESTS	The design and analysis of experiments, including screening designs, optimal design, model-robust design, mixture experiments, response surface methods, and regularization methods; applications of experimental design; applied predictive modeling; applied optimization	
ACADEMIC APPOINTMENTS	<b>Miami University</b> , Oxford, OH USA <i>Associate Professor</i>	<b>July 2016 to present</b>
	<b>Center for Visual Sciences at Miami University</b> <i>Member</i>	<b>October 2019 to present</b>
	<b>Sattler College</b> , Boston, MA USA <i>Adjunct Professor (non-resident)</i>	<b>August 2018 to December 2021</b>
	<b>Miami University</b> , Oxford, OH USA <i>Assistant Professor</i>	<b>August 2010 to June 2016</b>
	<b>The Pennsylvania State University</b> , State College, PA USA <i>Research Assistant, Statistical Consulting Center</i>	<b>August 2007 to July 2009</b>
	<i>Instructor</i>	<b>Summer 2006, 2007</b>
	<i>Teaching Assistant</i>	<b>2005-2006, 2006-2007 academic years</b>
	<b>Oregon State University</b> , Corvallis, OR USA	
EDUCATION	<b>The Pennsylvania State University</b> , State College, PA USA Ph.D., Statistics and Operations Research, August 2010 <ul style="list-style-type: none"><li>• Dissertation Topic: Model-Robust and Multiresponse Experimental Design</li><li>• Advisor: Enrique del Castillo</li><li>• Committee Chair: James Rosenberger</li></ul> M.S., Statistics and Operations Research, December 2007 <ul style="list-style-type: none"><li>• Thesis Topic: Calculating Cell Bounds in Contingency Tables Based on Conditional Frequencies</li><li>• Advisor: Aleksandra Slavković</li><li>• Area of Study: Statistical Disclosure Limitation</li></ul> <b>Oregon State University</b> , Corvallis, OR USA B.S., Industrial Engineering, March 2005 <ul style="list-style-type: none"><li>• <i>Summa cum Laude</i></li></ul>	

SUBMITTED / IN  
REVISION / IN  
PROCESS

Cui<sup>1</sup>, M., Qi<sup>2</sup>, K., Smucker, B., and Sundaramoorthi, D. A Multi-Objective Capacity-Constrained Optimization of Corn Planting Scheduling. Submitted.

Perez-Estrada, J.R., Tangeman, J., Proto-Newton, M., Sanaka, H., Smucker, B., and Del Rio-Tsonis, K. Distinct Metabolic States Direct Retinal Pigment Epithelium Cell Fate Decisions. In revision.

Tsissios, G., Sallese, A., Perez-Estrada, J.R., Tangeman, J.A., Chen, W., Smucker, B., Ratvasky, S.C., Grajales-Esquivel, E., Martinez, A., Visser, K.J., Araus, A.J., Wang, H., Simon, A., Yun, M.H., Del Rio-Tsonis, K. Macrophages modulate fibrosis during newt lens regeneration. Submitted.

PREPRINTS

Stallrich, J.W., Young, K., Weese, M.L., Smucker, B.J., and Edwards, D.J. Optimal Supersaturated Designs for Lasso Sign Recovery. [arxiv.org/abs/2303.16843](https://arxiv.org/abs/2303.16843)

INVITED COLUMNS  
AND DISCUSSIONS

Smucker, B., Krzywinski, M., and Altman, N. (2019). Points of Significance: Two-level factorial experiments. *Nature Methods*, 16:211–212.

Smucker, B., Krzywinski, M., and Altman, N. (2018). Points of Significance: Optimal experimental design. *Nature Methods*, 15(8):559–560.

Smucker, B.J. (2012). Discussion of “Optimum design of experiments for statistical inference” by Gilmour and Trinca. *Journal of the Royal Statistical Society: Series C (Applied Statistics)*. 61(3):345–401.

INVITED PRESENTATIONS/PANELS

Panelist for Invited Session “Innovative Experimental Design Education: Active Learning, Data Science, and Computer-Generated Designs”, Joint Statistical Meetings, Washington D.C. August 2022.

“The State of Supersaturated Design and Analysis”, Quality and Productivity Research Conference, San Francisco State University. June 2022. Talk delivered virtually.

“Response Surface Models: To Reduce or Not to Reduce?”, Quality and Productivity Research Conference. July 2021. Talk delivered virtually.

“Meta-Model Optimization of Simulated EMS Systems: A Case of Statistical Engineering”, World Statistics Conference. July 2021. Talk delivered virtually.

“Experimental design ideas in data science: an overview.” Joint Statistical Meetings (virtual conference). August 2020.

“An Introduction to Split-Plot Experiments with Application to Bone Tissue Engineering.” American Chemical Society Central Regional Meeting, Midland, MI. June 2019.

“Model-Robust Mixture Designs.” Spring Research Conference, Blacksburg, VA. May, 2019.

“The Construction of Missing-Robust Experimental Designs and their Comparison to Classical and Optimal Designs.” The Design and Analysis of Experiments (DAE 2017) Conference, UCLA. October 2017.

“Evaluating and Constructing Designs for Robustness to Unusable Observations.” IFPAC-2017, North Bethesda, MD. March 2017.

“Model-Robust Mixture Experiments.” International Conference on Design of Experiments, Memphis, TN. May 2016.

“Generating and Comparing Pareto Fronts of Experiment Designs to Simultaneously Account for Multiple Experimental Objectives.” Designed Experiments: Recent Advances in Methods and Applications (DEMA 2015), Sydney, Australia. December 2015.

“Generating and Comparing Pareto Fronts of Experiment Designs to Simultaneously Account for Multiple Experimental Objectives.” INFORMS Annual Meeting, Philadelphia. November 2015.

“Approximate Model Spaces for Model-Robust Experiment Design.” Fall Technical Conference, Richmond, VA (*Technometrics* invited session). October 2014.

“Approximate Model Spaces for Model-Robust Experiment Design.” European Network of Business and Industrial Statistics, 2014 (ENBIS-14), Johannes Kepler Universität, Linz, Austria. September 2014.

“Approximate Model Spaces for Model-Robust Experiment Design.” Design and Analysis of Experiments 2012, University of Georgia. October 2012.

“Algorithms and Model Spaces for Model-Robust Experiment Design.” Spring Research Conference, Harvard (*Journal of Quality Technology* Invited Session). June 2012.

DEPARTMENT OR  
ORGANIZATION  
PRESENTATIONS

“Row-Constrained Supersaturated Designs for Biological Screening”, Purdue University Department of Statistics Colloquium Series. September 2023.

“Response surface models: To reduce or not to reduce?”, Design of Experiments Fire-side Chat with Dr. Doug Montgomery. March 2023.

“Meta-Model Optimization of Simulated EMS Systems: A Case of Statistical Engineering.” Seminar, Eastern Kentucky University. November 2022.

“Using Statistics to Predict: Politics, Sports, Shakespeare, and ... Business!” BASF, Florham Park, NJ. March 2016.

“Powerful Supersaturated Designs when Effect Directions are Known.” BERD Seminar, Cincinnati Children’s Center for Clinical & Transitional Science & Training. February 2016.

“Approximate Model Spaces for Model-Robust Experiment Design.” Department of Statistics and Operations Research. Virginia Commonwealth University. March 2014.

“Candidate-List-Free Exchange Algorithms for Exact, Model-Robust Designs.” Proctor & Gamble, Mason, OH. January 2011.

“Model-Robust Experimental Design: Beyond Completely Randomized Experiments” U.S. Census Bureau. May 2010.

“A Maximin Model-Robust Exchange Algorithm and its Generalization.” Alumni Workshop, Penn State University. March 2010.

“Exchange Algorithms for Model-Robust, Exact Experimental Designs.” Miami University at Oxford, OH. March 2010.

CONTRIBUTED  
PRESENTATIONS

“Comparing Supersaturated Designs Using Exact Screening Probabilities”, Quality & Productivity Research Conference, Houston, TX. June 2023.

“The State of Supersaturated Design and Analysis”, Fall Technical Conference, Park City, UT. October 2022.

“Predictive Response Surface Models: To Reduce or Not to Reduce?” Fall Technical Conference, West Palm Beach. October 2018.

“Predictive Response Surface Models: To Reduce or Not to Reduce?” Joint Statistical Meetings, Vancouver. August 2018.

“A Meta Analysis of Response Surface Experiments.” Fall Technical Conference, Minneapolis. October 2016.

“A Meta Analysis of Response Surface Experiments.” Joint Statistical Meetings, Chicago. August 2016.

“Generating and Comparing Pareto Fronts of Experiment Designs to Simultaneously Account for Multiple Experimental Objectives.” Joint Statistical Meetings, Seattle. August 2015.

“Approximate Model Spaces for Model-Robust Experiment Design.” Fall Technical Conference, San Antonio. October 2013.

“Fast Calculation of Exact Contingency Table Cell Bounds Given Conditional Frequencies.” Joint Statistical Meetings, Montreal. August, 2013.

“Powerful Supersaturated Designs.” Joint Statistical Meetings, San Diego. July 2012. Topic-contributed.

“Candidate-List-Free Exchange Algorithms for Two-Level Model-Robust Designs.” Fall Technical Conference, Kansas City. October 2011.

“Candidate-List-Free Exchange Algorithms for Exact, Model-Robust Designs.” International Conference on Design of Experiments, Memphis, TN. May 2011.

“Correcting Bias Introduced by Aerial Counts in Angler Effort Estimation.” American Fisheries Society Annual Meeting, Pittsburgh. Finalist (out of 19) for Best Student Paper. September 2010.

“Maximin Model-Robust Designs for Split-Plot Experiments.” Joint Statistical Meetings, Vancouver. August 2010.

“A Maximin Model-Robust Exchange Algorithm and its Generalization.” Joint Research Conference, NIST, Gaithersburg, MD. May 2010.

“Multiresponse Exchange Algorithms for Model-Robust Experimental Design.” Fall Technical Conference, Indianapolis. October 2009.

“Cell bounds in two-way contingency tables based on conditional frequencies.” Privacy and Statistical Databases, Istanbul. September 2008.

“Cell bounds in two-way contingency tables based on conditional frequencies.” Joint Statistical Meetings, Denver. August 2008.

EXTERNAL  
RESEARCH  
FUNDING

Funded, Continuing

National Eye Institute (NIH) (R21), “Inflammation is a driver of newt lens regeneration”. \$388,475. PI: Katia Del Rio-Tsonis. My role: Statistical personnel. Funded 09/2022-08/2024.

National Institute on Aging (NIH) (R03), “The Use of Virtual Manipulations to Assess Fall Risk and the Mechanisms of Postural Instability that Occur with Age”. \$144,500. PI: James Chagdes. My role: Key personnel. Funded 03/2021-02/2024 (NCE).

National Eye Institute (NIH) (R01), “A Roadmap to Uncover RPE Plasticity”, \$1,445,000. PI: Katia Del Rio-Tsonis. My role: Key personnel. Funded 06/23-05/27.

National Institutes of Health (R01), “Sustained regulation of hypothalamus-pituitary-ovary hormones with allogeneic tissue-engineered ovarian constructs as a treatment

for osteoporosis in females”. \$2,531,619. PI: Justin Saul. My role: Co-PI. Funded 05/2023-03/2028.

Funded, Expired

National Eye Institute (NIH) (R21), “In vivo imaging of newt lens regeneration: Novel molecular, cellular and functional insights”. \$388,475. PIs: Hui Wang and Katia Del Rio-Tsonis. My role: Statistical personnel. Funded 09/2020-08/2023 (NCE).

National Institutes of Health (R01), “On Determinants of Lens Regeneration”, \$1,083,750. PI: Katia Del Rio-Tsonis. My role: Key personnel. Funded 09/2017-05/2022.

National Institutes of Health (R21), “Investigating the role of NKX6-1 in secondary lens fiber cell differentiation”. \$391,956. PI: Michael Robinson. My role: Key personnel. Funded 02/2020-01/2022.

U.S. Census Bureau Dissertation Fellowship, 2009-2010; \$50,000.

INTERNAL  
RESEARCH  
FUNDING

Miami University, Committee on Faculty Research, “An Experimental Design Approach to Biological Screening”. \$49,744. Funded 05/2023-12/2024. My role: PI.

Miami University 2018 College of Arts and Science Dean’s Scholar advisor for Yuexi Wang and Le Chang. \$750 + \$1,500 for the students.

Miami University Center for Analytics & Data Science 2017 Summer Research Fellowship. “Model Selection Using Approximate Leverage Methods for Big Data Regression”. \$2,000.

Miami University, Committee on Faculty Research. \$6200. Summer 2011.

Summer research grant for new tenure-track faculty, awarded for summer 2011. Miami University, College of Arts and Sciences, deferred to summer 2012. \$5000.

## SERVICE

To Miami University

Statistics Department

- Promotion & Tenure Committee Chair, 2017-present.
- Department scheduling, 2017-present
- Comprehensive/Qualifying Exam Committee, 2014-present
- Co-Chair of Search Committee, 2020-2021
- Member, Search Committee, 2012-2013, 2014-2015, 2017, 2019-2020
- Actuarial science advisor, 2013-2016.
- Co-director (with Doug Noe and Bob Davis) of Statistics in Sports conference at Miami, Fall 2012
- Colloquium Committee, 2010-2016

University

- Member, Committee on Faculty Research (CFR), 2019-2022; Chair of the Applied and Natural Sciences subcommittee, 2020
- Outside member, Political Science search committee, 2017-2018
- Member search committee, Miami University-Middletown statistics position, 2016-2017
- Mechanical and Manufacturing Engineering Department Review Committee, 2017
- Undergraduate Research Committee, Miami University, 2015-2017
- Petitions Sub-Committee of Graduate Council, Miami University, 2013-2015

To the profession

Editorial/Review

- *Journal of Amish and Plain Anabaptist Studies*, Editorial Board member. 2020-present.
- *Quality Engineering*, Editorial Review Board member. 2019-present.
- Editor, "Open Challenges in Industrial Statistics" column, *Quality Engineering*, 2019-present. (Co-editor from 2017-2019.) - This has been inactive for the last several years.
- Referee for many journals, including *Technometrics*, *Journal of Quality Technology*, *Statistics and Computing*, *European Journal of Operational Research*, *Quality Engineering*, and *Journal of Statistical Computation and Simulation*.

Professional Society

- 2019 Chair (elected), the American Statistical Associations Section on the Physical and Engineering Sciences. Additionally, performed responsibilities in 2018 as Chair-Elect and in 2020 as Past Chair.
- 2017 Joint Statistical Meetings (JSM) Program Chair (elected) for the Section on Physical and Engineering Sciences. In 2016, responsible to organize roundtable sessions at the Joint Statistical Meetings. In 2017, responsible for the SPES-sponsored JSM program.
- Member of ASA President's "Making an Impact" Task Force, 2019-2020.

- Member of Youden Address Committee. The committee selected Michael Hamada to deliver the Youden Address at the 2020 Fall Technical Conference. Due to COVID-19, the conference was delayed one year.
- Member of SPES Charter Review Committee, 2018
- Continuing Education Chair for American Statistical Association's Section on Physical and Engineering Statistics, 2012-2015.

#### Conference-related

- Session Organizer, 2023 IMS/ASA Spring Research Conference in Banff, Albert.
- Invited Session Organizer, JSM 2022. "Innovations on Teaching Experiments: Active Learning, Data Science, and Optimal Design."
- Session chair, 2018 Fall Technical Conference.
- Session Organizer, "Rethinking the Analysis of Modern Designed Experiments", JSM 2017
- Invited Session Organizer, "The Extraordinary Power of Designed Experiments", JSM 2016.
- Chair of contributed program, member of program committee, and session organizer. 2015 Spring Research Conference, Cincinnati. 2014-2015.
- Session organizer and chair of topic-contributed session, "Model-Robust Design: Why Not More Impact?", JSM 2012.

#### Miscellaneous

- External reviewer for promotion and tenure of Danel Draguljic at Franklin & Marshall College, 2017
- Reviewer for internal proposal at the University of Central Oklahoma, 2016.
- Co-developed the Industrial Statistics Virtual Collaboratory, an online space to encourage collaboration between industry and academia, 2016-2017.

#### HONORS

2022 Lloyd S. Nelson Award, for "Response surface models: To reduce or not to reduce?" (with David Edwards and Maria Weese), given to the paper appearing in the 2021 *Journal of Quality Technology* with the "greatest immediate impact to practitioners."

2nd place, 2021 Syngenta Crop Challenge in Analytics (with Mingshi Cui and Kunting Qi).

Runner-up Outstanding Presentation from the American Statistical Association's Section on Physical and Engineering Sciences for contributed talk, "Predictive Response Surface Models: To Reduce or Not to Reduce?", at the 2018 Joint Statistical Meetings.

Honorable Mention Presentation Award from the American Statistical Association's Section on Physical and Engineering Sciences for contributed talk, "A Meta-Analysis of Response Surface Studies", at the 2016 Joint Statistical Meetings.

Elected Member of the International Statistical Institute (2016).

2015 Miami University Junior Faculty Distinguished Scholar Award. September, 2015.

Honorable Mention Presentation Award from the American Statistical Association's Section on Physical and Engineering Sciences for contributed talk at the 2010 Joint Statistical Meetings.

Finalist (one of five) for 2009 Shewell Award for best presentation at the Fall Technical Conference, for talk entitled "Multiresponse Exchange Algorithms for Model-Robust

Experimental Design”.

Student Paper Competition winner (one of five), 2008, for “Calculating Cell Bounds Based on Conditional Frequencies”; contest sponsored jointly by the Social Statistics, Government Statistics, and Survey Research Methods sections of the American Statistical Association.

Top score, Department of Statistics Master’s Qualifying Exam Applied Section, May 2006.

First Place in class of Industrial and Manufacturing Engineering students at Oregon State for Senior Project, “Grass Seed Crop Mix Optimization” with Kyle Erickson and Jenni Barnes.
